Sounds of Nature Deployment Checklist

○ Record field deployment details on datasheet

○ Set AudioMoth to *Default*, verbally record field notes, then switch to *USB/Off*

○ Set AudioMoth to *Custom* and check lights
- Good: Only green light flashing **OR** only red light flashing
- Bad: Solid red light with flashing green light. Use Audiomoth Chime App to reprogram (see deployment field guide)

○ Seal AudioMoth inside plastic bag with desiccant, place inside camouflage pouch, and hang 4-5 feet about ground with zip ties

○ Retrieve 5 full mornings after deployment, **turn off** AudioMoth, and update datasheet
